

**THE VILLAGE AT
ORCHARD RIDGE**

A National Lutheran Community

Date: December 23, 2021

To: Orchard Woods Health Center residents and team members

From: Melissa Sellers, Healthcare Administrator

Subject: Positive COVID-19 team member

Following The Village at Orchard Ridge's health and safety practices for temperature and symptom screenings for team members, one Orchard Ridge team member tested positive for COVID-19 earlier today, December 23, 2021. Out of an abundance of caution, all residents and team members in Orchard Woods have also been tested today. No additional team members or residents tested positive for the virus.

In consultation with Virginia Department of Health (VDH), we are able to continue all in-person visitation, both indoor and outdoor, for Orchard Woods Health Center. Please continue to follow infection control precautions by wearing your mask at all times while in the health center.

As a reminder, if you are experiencing any cold or flu symptoms or not feeling well, please do not visit Orchard Woods until your symptoms have resolved.

Thank you for your understanding, continued partnership and confidence in The Village at Orchard Ridge as we navigate this path together.
